Pay the same amount each month

Your electricity usage can change from month to month, but with SimplePay you'll pay the same amount. Here's how the plan works:

- ▶ We'll look at your monthly usage over the past 12 months and base your monthly payment on your average usage. Then you'll pay the same amount each month — no surprises!
- ▶ We'll monitor your monthly usage to make sure your payment amount is accurate, and adjust the amount after six months if necessary — that way your payments stay on track.
- ▶ Once you're on the plan for a year, we'll automatically re-enroll you and establish a payment based on your most recent 12 months' bills. If you've used more or less electricity than budgeted, a balance or credit will be applied to your account.
- ▶ SimplePay is **FREE** and you may cancel at any time.
