See Spot Go

Reliability's new best friend

Meet Spot, the robot dog that could change the future of substation inspections. Spot takes high-definition photos and compares them with previous images, allowing Spot to detect changes in the infrastructure that escape the human eye. Spot is helping us to deliver safe, reliable power to you every day!

Spot, the robot dog, helps improve our substation inspections.

Community Spotlight

Helping make wishes come true

CMP volunteers answered calls during the **Make-A-Wish Maine Power of a Wish** telethon to **help raise more than \$130,000**. These funds, including a CMP donation, help grant wishes for Maine children with life-threatening medical conditions. More than 1,700 of these wishes have been granted through this program since 1992.

Members of the CMP Community Relations Team answered calls during the Make-A-Wish telethon.

Save \$5,000 on water heating

Tens of thousands of Mainers own heat pump water heaters. They're popular because they produce lots of hot water, help dehumidify, and **can save you more than \$5,000 in energy costs over their 10-year life.***

Scan the QR Code to learn how you can get a heat pump water heater for as little as \$429.** Don't have a smart phone? Then visit efficiencymaine.com or call **866.376.2463**.

*Compared to a traditional electric water heater as shown on Efficiency Maine's Compare Water Heating Costs calculator as of 3/1/2023. Your results may differ.

**Price as of 3/1/2023 and subject to change.

Be aware of scam callers posing as CMP

We will not call and tell you we'll disconnect your service if you do not pay us today. If you have any questions or think the person you are talking to may not be a CMP representative, please call our Customer Service line at **800.750.4000**. We are happy to help you with your account.
