

**Central Maine Power Company (CMP)
2024 ISO New England Inc. Transmission, Markets and Services Tariff
Docket No. ER20-2054**

**Maine Public Utilities Commission (MPUC)
Data/Information Request No. 2**

September 10, 2024

MPUC-CMP-2-5

Q: In reference to the spreadsheet file Attachment 3 – Central Maine Power – Att F – App B – Att 1 (Regional),” Tab “WS 5 True-up Interest,” Excel cell J14, Actual Annual Revenue Requirements, has a value of \$213,103,784. However, the sum of the references listed in Excel cell L14, “W/S 1, Line 5(A) + PY Annual True-up, W/S 4, Line 32(C) + PY Prior Period Adjustments, W/S 1, Line 7(A)” is \$184,740,831. Please confirm which value is correct.

A: The Actual Annual Revenue Requirements of \$213,103,784 reflected on “Attachment 3 – Central Maine Power – Att F – App B – Att 1 (Regional),” Tab “WS 5 True-up Interest” is correct. The prior year (“PY”) annual true-up and prior period adjustments refers to calendar year 2021 revenue requirements which were in rates in 2023. The calculations implied by the request appear to include values based on calendar year 2022 revenue requirements which will be in rates in 2024. The derivation of the \$213,103,784 reflected on “Attachment 3 – Central Maine Power – Att F – App B – Att 1 (Regional),” Tab “WS 5 True-up Interest” is as follows:

<u>#</u>	<u>Description</u>	<u>Amount</u>
1	W/S 1 Line 4 (A)	\$220,980,821
2	2021 ATU - Proration	<u>(\$7,877,036)</u>
3	Actual Annual Revenue Requirements	<u>\$213,103,874</u>
