

ME EBT Change Request**2003-001**

Requester Name: Eric Van De Yacht & Amy Velez	Company Name: WPS Energy Services & Energy Services Group	Phone # :
Date of Request: 12/09/02	Affected EDI Transaction Set #(s): 814-6	E-mail Address: EVandey@wpsenergy.com
Requested Priority High	Requested Implementation Date:	Status: Working

Brief Explanation:

Currently, response transactions only echo back the ASI segment's Maintenance Type Code if the request is accepted. If the request is rejected, the Maintenance Type Code 021 is used. We would like the appropriate Maintenance Type Code to be echoed back whether the request is accepted or rejected.

Detail Explanation:

The 814-6 would need to change so that if a request were rejected, the ASI Maintenance Type Code of the request is used in the response. For example, if a change request were sent, the ASI segment would look like this: ASI*7*001. Currently, if this change is rejected, the response would come back like this: ASI*U*021. We would like to see the default "021" be replaced by the "001" from the original request. This would look like this: ASI*U*001.

Discussion Items:**For Change Control Manager Use Only:**

Date(s) of EBT Discussion: 02/13/2003	Expected Implementation Date:	
---	--------------------------------------	--

Discussion and Resolution:

02/13/2003 – EBT Working Group Meeting – All TDC's will need to evaluate the extent of the changes required and report at the next EBT Meeting.
02/13/2003 – Attached Redlined 814 Appendix A & C for review.
